

Allied Health Concentration (GSAH)

A Degree in General Studies

This concentration is for those who anticipate applying to a healthcare program, allowing them to complete general education requirements prior to program acceptance. Most of the MWCC healthcare programs have selective admissions requirements (see page 13 of the college catalog). Acceptance into this General Studies Concentration does not guarantee admission into a selective healthcare program.

See page 122 of the college catalog for program competencies and technical standards.

Campus/format: A majority of this degree can be completed during the day, or evening at the Gardner Campus.

Helpful hints: General Studies is a good alternative if you have not decided on a career or transfer program. However, once you have decided, it is suggested that you change your program of study as soon as possible. Students without a strong science background are encouraged to take BIO115.

Transfer options: Students interested in pursuing a selective healthcare program should apply after fulfilling prerequisite requirements. Students seeking admission to specialized programs should consult program sheets for course requirements. A transfer agreement exists with Southern Vermont College.

Special requirements: Students should become familiar with the admission requirements and application deadline of their intended selective program. Technical standards must be met with or without accommodations.
